## About Us

**Zipby Services Pvt.Ltd.** is in service to our clients from the year 2022 . It is an EX Serviceman organization run by a board of directors who are all retired Army Officers. This venture was started as an individual concern which was later converted in to a Pvt Ltd Company in 2022 To our credit is a long list to include Public and Private Sector Undertakings, Banks, ATMs, Residential Societies, Commercial complexes, Educational centers, amongst others. We have also incorporated E Solutions in to our security services whereby giving a handle to the user to interact, monitor and handle the complex and dynamic security challenges.

Today the company feels proud in providing the best quality and tailor made services according to the customer requirement and specification. z.s. is progressively engaged in providing Security, House Keeping, Cleaning & Gardening Services and Integration of Physical Security with Electronic Security. We not only expertise in security but also provide complete manpower solutions for all types of duty involved for a Facility Management.

The thin line of contention of z.s. has been identification process of Human Resource where the team leaders have been able to distinguish not only skills and attitudes but also the competencies that are trainable from those that are not. This core philosophy has been the guiding force in the recruitment and deployment arena, which accounts for the smart turnout and appearance of the personnel on duty.

The hierarchy at z.s. is based on a simple philosophy which believes that each individual has a latent talent-performing, striving, thinking, relationship management; and these must find expression in the roles they perform as in a services organization.

Ex Servicemen, Security professionals and Engineers form the backbone of our organization who provide training, guidance and supervision to our security setup concerned. In addition We have a vast base for intake which is trained and groomed at the available infrastructure of our company. We provide our clients with the following services:

- Trained Security manpower as per your requirement i.e. Armed Guard, Un- Armed Guard, PSO / SO.

- Carry out establishment and integration of physical and electronic Security.
- Provide training to your administrative staff in contingency planning and execution.
- Consultancy and Investigations.
- Miscellaneous requirement specific to the organization if any.

### **OUR E-SOLUTIONS : A CONCEPT**

Companies in India and Worldwide are constantly looking for usable, cost effective technologies to reduce their Asset Management costs. As assets multiply , the need is never more than now, to manage the growth in a controlled way, reduce wastage, improve utilization and thereby, improve the bottom line of the business. These addressable industry verticals include Education campuses for Monitoring students ,manufacturing companies for Tracking Inventory, integrated logistics players, car rental companies, limousine services , mining companies, oil tanker industry, courier companies, insurance and leasing companies and many more.

These companies over the years need to work with professional technology companies who not only provide them robust, cost effective solutions to track and trace their assets, but also work as business consultants to their operations team, constantly providing them top quality service to “listen to their assets”. Etrax Mobility focuses on such products and solutions that help the corporate realize better control and visibility over their assets through convergent technologies of RFID and GPS, a robust platform that provides end to end asset visibility and life cycle management.

### **INNOVATIONS ON THE WAY**

Telematics and AutoID are the two major focus areas that form the basis of Etrax Mobility’s innovation road map. The inevitable progress of converging technologies: vehicle electronics interface, satellite navigation, wireless data transmission and automation software is pointing to the emergence of a fully integrated telematics service environment. While remaining at the forefront of vehicle electronics technology, Transtrite is evolving a total vehicle support system. This

# Facilities Management

Zipby Services is a “one-stop-shop” for all kinds of facility services, ranging from general house – keeping and pantry services to office support staff

# OUR MISSION

To provide Excellence in security services to our customers for giving assurance of protection and safety.

# OUR VISION

Our Vision is to become the leading supplier of close Protection Officers, Door Supervisor and security Personnel in the India, With our expert Knowledge and experienced fully Licensed Personnel.

# Transition Plan

- a) Almost a week prior to taking over the site; key personnel from Zipby Services like Field officer, operations in charge / SO shall stay at site.
- b) Security audit of the site shall be carried out by officers of Zipby Services and will be discussed with Management and amendments where required shall be incorporated with the approval of the Management.
- c) List of all those guards who have to be changed shall be prepared in consultation with the Management and reliefs planned accordingly.
- d) Additional officers like Trainer, FO, Operations in charge shall stay put on the site till it stabilizes and new team is fully in control for the site Security Operations.
- e) Will ensure smooth & flawless transition.

Zipby Services being a relatively new company has to put in more efforts, not only in motivating guards but to go a mile extra, to satisfy the environment that we are a shade better than what is generally available in the market. We work for self-respect and believe developing relationship with esteemed persons/ institutions/groups.

# Value Adds

- **Under Vehicle Search Mirror (UVSM): 1 Unit**
- **Risk & Technical Assessment of Site – Quarterly**
- **Customized Training Session /Fire Training / Mock Drill (For Guard Force) - Monthly**
  
- **Fire Training: Quarterly**
- **24 X 7 Emergency Support**
- **QRT Vehicle: Available on Call**
